

**Table of Specification for the Design and Development Practical
Assessment Scenarios for Restricted Operator Certificate
(ROC)**

(Equipment carriage for ship sailing in Sea Area A1)

Function: Radiocommunications at the Operational Level

Competence	Knowledge, Understanding and Proficiency (KUP)	Number of Assessment Scenarios
Transmit and receive information using GMDSS subsystems and equipment and fulfilling the functional requirements of GMDSS.	1. Search and rescue radio-communications, including procedures in the International Aeronautical and Maritime Search and Rescue (IAMSAR) Manual.	6
	2. The means to prevent the transmission of false alerts and the procedure to mitigate the effects of such alerts.	6
	3. Ship reporting systems.	6
	4. Radio medical services.	6
Provide radio services in emergencies.	1. Abandon ship.	6
	2. Fire on board ship.	6
	3. Partial or full breakdown of radio installations.	6
